NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

1. Nature of business

The Company was incorporated under the Canada Business Corporations Act on July 19, 2012 under the name Ovid Capital Ventures Inc. and was classified as a Capital Pool Company, as defined by TSX Venture Exchange ("TSX-V") Policy 2.4.

On August 7, 2015, the Company completed a Qualifying Transaction, as defined under Policy 2.4 - Capital Pool Companies of the TSX-V, involving the acquisition of all of the assets of BIOflex Medical Magnetics, Inc. and on August 13, 2015, the Company filed articles of amendment in order to change its name to BIOflex Technologies Inc. The Company is a Tier 2 Life Sciences Issuer trading on the TSX-V under the trading symbol "BFT" and on the Frankfurt Stock Exchange under the symbol "6BX".

The Company owns patented intellectual property for application in direct-to-consumer devices which aid in decreasing pain, improving recovery time and enhancing performance. The Company has developed and plans to commercialize several product applications including those specific for knees, elbows, ankles and back and is currently developing other products including a line of sleep and wellness products; all designed to enhance physical well-being.

The address of the Company's registered and head office is 1000 Sherbrooke St. West, Suite 2700, Montreal, Quebec, Canada.

2. Going concern

The accompanying financial statements have been prepared on the basis that the Company will continue as a going concern. Accordingly, they do not purport to give effect to adjustments, if any, that may be necessary should the Company be unable to continue its operations and therefore be required to realize its assets and discharge its liabilities and commitments in other than the ordinary course of business.

The Company has only recently, on August 7, 2015, completed its Qualifying transaction and does not currently have operations capable of generating significant revenue or cash flows. As at September 30, 2015, the Company has an accumulated deficit of \$929,093 (June 30, 2015 - \$650,087), and working capital of \$654,357 (June 30, 2015 - \$(102,655)), has had losses and expects to incur further losses in the development of its business. The Company's continuing operations as intended are dependant upon its ability to obtain new equity financing to allow it continue to develop and commercialize several product applications. Financing options available to the Company include debt and equity financing. Realization values of the Company's assets may be substantially different from carrying values as shown in these condensed consolidated financial statements, should the Company be unable to continue as a going concern.

It is management's opinion, given the current level of funding and projected levels of expenditures, the Company has sufficient cash resources to continue for the next nine months.

3. Basis of preparation

The financial statements were authorized for issuance on November 26, 2015 by the board of directors of the Company.

On August 18, 2015, the Company announced the closing, as of August 7, 2015, of its Qualifying Transaction, as defined under Policy 2.4 - Capital Pool Companies of the TSX-V, involving the acquisition of all of the assets of BIOflex Medical Magnetics, Inc. ("BIOflex") and a concurrent private placement.

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

3. Basis of preparation - Cont'd

The Qualifying Transaction was carried out by means of an asset purchase agreement, dated April 29, 2015 (the "Purchase Agreement") entered into between the Company, its wholly owned subsidiary Ovid Acquisition Corp. ("Acquireco"), BIOflex, and BIOflex's sole shareholder iTech Medical, Inc. Pursuant to the Purchase Agreement, Acquireco acquired all of the assets of BIOflex in exchange for cash consideration in the amount of \$60,000 and the issuance of 17,225,000 Common Shares at a deemed price of \$0.1125 per share.

In connection with the Qualifying Transaction, the Company completed the Offering of Units, which, as described in Note 9, comprised of a brokered and non-brokered private placement of an aggregate of 10,015,466 Units at a price of \$0.1125 per Unit. Each Unit was comprised of one Common Share and one common share purchase warrant (each, a "Warrant"), with each Warrant entitling the holder thereof to acquire one additional Common Share at an exercise price of \$0.15 for a period of twelve months from the Closing Date.

3.1 Statement of compliance

These unaudited condensed interim financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, IAS 34 "Interim Financial Reporting" as issued by the International Accounting Standards Board ("IASB") and Interpretations of the IFRS Interpretations Committee ("IFRIC"). Accordingly, certain disclosures required in annual financial statements have been condensed or omitted. These condensed interim financial statements are intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that these condensed interim financial statements be read in conjunction with the most recent audited annual financial statements of the Company for the year ended June 30, 2015.

3.2 Basis of measurement

The unaudited condensed interim financial statements have been prepared under the historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss or available for sale which are measured at fair value. In addition, the financial statements have been prepared using the accrual basis of accounting and are presented in Canadian dollars, which is the functional currency of the Company.

3.3 Accounting judgements, estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions about the carrying amounts of assets and liabilities and disclosure of contingent assets and liabilities as at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods presented. Actual results could differ from those estimates and such differences could be significant.

The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments however, may change due to market changes or circumstances arising beyond the control of the Company. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

3. Basis of preparation - Cont'd

Critical accounting estimates and judgements are those that have a significant risk of causing material adjustment and are often applied to matters or outcomes that are inherently uncertain and subject to change. Key areas of estimation, where management has made difficult, complex or subjective judgements, often as a result of matters that are inherently uncertain, include the valuation of share based payments, accrued liabilities and deferred taxes.

In preparing these unaudited condensed interim financial statements, the significant judgements made by management in applying the accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Company's annual financial statements as at June 30, 2015.

4. Short-term investment

The short-term investment is a cashable investment certificate with the Company's bank bearing interest at the rate of 0.8% maturing within one year and whose market value approximates cost.

5. Receivables

Receivables are comprised of the following:

	September 30, 2015 \$	June 30, 2015 \$
Trade receivables	5,083	-
Accrued interest receivable	27,830	24,453
Sundry	1,575	-

In connection with the Qualifying Transaction referred to above, the Company completed an offering of Units, which consisted of a brokered private placement of 1,837,111 Units and a non-brokered private placement of an additional 8,178,355 Units at a price of \$0.1125 per Unit. Each Unit was comprised of one Common Share and one common share purchase warrant (each, a "Warrant"), with each Warrant entitling the holder thereof to acquire one additional Common Share at an exercise price of \$0.15 for a period of twelve months from the Closing Date. The proceeds attributable to the common shares is \$443,682 being the net amount of the proceeds after share issue costs of \$98,083 and estimating the fair value of the warrants of \$578,086 calculated using the Black Scholes option pricing model with the following assumptions:

Risk free interest rate	0.45%
Expected volatility	100%
Dividend yield	NIL
Expected life	1 year
Grant date fair value	.0577

Jones, Gable & Company Limited (the "Agent") acted as agent for the brokered portion of the offering. As consideration for its services in connection with the transactions, the Agent (and its sub-agents) received: (i) a cash commission in the amount \$18,687.50; (ii) 183,711 non-transferable agent compensation options, each entitling the holder thereof, for a period of twelve months from the Closing Date, to acquire one Common Share at a price of \$0.1125 per share; and (iii) reimbursement of the fees and expenses incurred in connection with the transactions. The estimated fair value of the compensation option of \$6,889 was calculated using the Black-Scholes option pricing model with the same assumptions as indicated above and is recorded as part of the share issue costs.

All securities issued pursuant to the transactions or which may be issued upon the exercise thereof are subject to a four-month plus one-day hold period expiring December 8, 2015.

As of September 30, 2015, 20,106,000 of the issued and outstanding shares are subject to escrow conditions and all securities pursuant to the Qualifying Transaction, or which may be issued upon the exercise thereof, a further 10,015,466 shares are subject to a four-month plus one-day hold period expiring December 8, 2015.

Basic loss per share is calculated by dividing the net loss by the weighted average number of common shares outstanding during the period. Outstanding shares that are contingently returnable are excluded from the calculation of basic earnings per share. A summary of the weighted average number of common shares outstanding are as follows:

	Three months ended

Exercisable	10,265,466	0.1500

The warrants issued in connection with the private placement described in Note 8. Each warrant entitles the holder to purchase one common share of the Company. The warrants are exercisable at \$0.15 per share and expire in August 2016.

11. Share based payments

On November 7, 2012, the Company established an incentive stock option plan (the "Stock Option Plan") which provides that the Board of Directors of the Company may from time to time, in its discretion, grant to directors, officers, employees and consultants of the Company, non-transferable options to purchase common shares. These options vest over a period determined by the Board of Directors when granted and expire after a period of up to ten years, provided that the number of common shares reserved for issuance under the Stock Option Plan does not exceed ten percent of the outstanding common shares issued. The Board of Directors determines the price per common share and the number of common shares that may be allotted to each director,

officer, employee and consultant of the Company and all other terms and conditions of the options granted under the Stock Option Plan.

The Company has accounted for options granted using the fair value method. The fair value of the options granted to directors and officers was estimated using the Black-Scholes option pricing model based on the following weighted average assumptions:

	Three months ended September 30, 2015
Risk free interest rate	1.13%
Expected volatility	50.45%
Dividend yield	NIL
Expected life	10 years
Grant date fair value	0.15

The fair value of the options granted to consultants of the Company was estimated using the Black-Scholes option pricing model based on the following weighted average assumptions:

	Three months ended September 30, 2015
Risk free interest rate	0.45%
Expected volatility	0
Dividend yield	NIL
Expected life	1 year
Grant date fair value	.1125

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect fair values, and therefore, the existing models do not necessarily provide a reliable measure of the fair value of the Company's stock options.

Stock option compensation costs are summarized as follows:

	Three months ended September 30, 2015
Options granted to directors and officers	9,152
Options granted to consultants	19,077

15. Capital disclosures

The Company's objectives when managing capital are:

- to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders;
- to maintain sufficient cash resources to support its ongoing activities;
- to maintain a flexible capital structure which optimizes the cost of capital at an acceptable level of risk.

In the management of capital, the Company considers the items includes shareholders' equity in the definition of capital.

The Company manages its capital structure and makes adjustments to it in light of economic conditions and the risk characteristics of the underlying assets. The Company, upon the approval of the Board of Directors, will balance its overall capital structure through the issue of new shares, acquiring or disposing of assets, or by undertaking other activities as deemed appropriate under specific circumstances.

The Company is not exposed to any externally imposed capital requirements.

Credit risk

The Company is exposed to credit risk through its cash and cash equivalents and its loans receivable described in Note 5. Credit risk results from the possibility that a loss may occur from the failure of another party to perform according to the terms of a contract.

Cash and cash equivalents are maintained with a high quality financial institution. As the Company's cash is held by a single Canadian bank, there is a concentration of credit risk. The carrying amount of cash and cash equivalents represents the Company's maximum credit exposure.

Loans receivable from iTech of \$250,000 were advanced in anticipation of a definitive merger agreement. The proposed qualifying transaction with iTech was terminated and the Company completed a new Qualifying Transaction with BIOflex. Management has determined that while the original conditions of the loan have not been met, the new proposed Qualifying Transaction would provide iTech with the ability to meet its obligations to repay these loans and accordingly, no impairment of the loan is necessary. The carrying amount of the loans receivable and accrued interest represents the Company's maximum credit exposure.

Interest rate risk

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in the interest rates. Changes in market interest rates may have an effect on the cash flows associated with some financial assets and liabilities, known as cash flow risk, and on the fair value of other financial assets or liabilities, known as price risk. In seeking to minimize the risks from interest rate fluctuations, the Company manages its short-term investments based on its cash flow needs. A change in the interest rates of 1% will not have a significant impact on the operations and cash flows of the Company.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's ability to continue as a going concern is dependant on management's ability to raise required funding through future equity issuances. The Company manages its liquidity risk by continuously forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments.
